PERSONAL INFORMATION

Birth date: 15 Oct 1998

Nationality: Egypt

Residence Country: Egypt – Cairo

PREFERRED JOB

Preferred Job: Software Engineer , Software Developer, MAEN stack developer, Dot Net Developer, Software Engineer
Field: Information Technology

WORK EXPERIENCE

Total Years of Experience: 1 year, 4 months

Freelance Full-Stack Developer (.NET & Angular) at UpWork

Oct 2025 – Present

Egypt – Cairo

– Delivering scalable back-end architectures and secure RESTful APIs using ASP.NET Core and SQL Server, while creating responsive interfaces with Angular. My primary focus is on server-side performance, database optimization, and implementing complex business logic. I ensure code quality through Clean Architecture and strictly adhere to project timelines to meet client expectations.

.NET Full-Stack Development at Information Technology Institute (ITI)

Jul 2025 – Dec 2025

Egypt – Cairo

– Developed full-stack web applications using ASP.NET Core, Entity Framework Core, Angular, and SQL Server, applying OOP and software engineering principles. Collaborated in Agile teams using Git/GitHub to build and deploy RESTful APIs and real-world business solutions.

Dot Net Full Stack Developer at Digital Egypt Pioneers Initiative – DEPI

Oct 2024 – Apr 2025

Egypt – Minyat an Nasr

- Developed a robust MVC application to efficiently manage employee records, enhancing user experience through features like employee listing, record addition, and validation.
- Leveraged core competencies in C#, .NET Core, and Entity Framework to create scalable and maintainable solutions.

- Utilized JavaScript for dynamic front-end interactions, ensuring a seamless user interface.
- Implemented SQL Server for reliable data storage and retrieval, optimizing database performance.
- Employed Git for version control, facilitating collaborative development and code management.
- Applied Design Patterns and SOLID principles to enhance code quality and maintainability, contributing to best practices in software development.
- Transitioning into a Software Engineer role, eager to expand expertise in MEAN stack and .NET development.

Odoo Implementer at ZAD Solutions

May 2023 – Jul 2023

Egypt – Cairo

- Leveraged in-depth understanding of business processes to optimize workflows and enhance system efficiency.
- Collaborated with cross-functional teams to gather requirements and translate them into technical specifications.
- Developed and implemented solutions that improved operational performance across departments.
- Applied analytical skills to identify areas for process improvement, resulting in increased productivity.
- Utilized programming languages and frameworks to design and build scalable applications.
- Engaged in continuous learning of software development methodologies to stay current with industry trends.
- Demonstrated strong problem-solving abilities in troubleshooting and debugging software issues.
- Committed to delivering high-quality software solutions that meet user needs and business objectives.
